

Hot stays Hot. Cold stays Cold.

VACUSTEEL

COLLECTION 2024

about us

Cello is India's leading brand in vacuum-insulated stainless steel products, offering a wide range of items, including flasks, bottles, lunch carriers, soup & food jars, kids' water bottles, carry mugs, beverage dispensers, and more. These products feature the unique 'Vacusteel Technology,' which keeps beverages hot or cold 24 hours a day. They are popular for regular home and office use, as well as for gyms, sports, outdoor enthusiasts, and travellers. Whether you prefer steaming hot tea or a cold juice, these vacuum-insulated stainless steel products ensure your drink stays exactly how you like it!

VACUSTEEL TECHNOLOGY

Cello Vacusteel products are manufactured using 18/8 high-grade stainless steel, featuring double-walled stainless steel vacuum insulation and a 'Thermoseal' layer with a copper coating for superior insulation. Vacusteel Technology is a unique combination of high-quality stainless steel, copper-coated 'Thermoseal' layer, and double-walled vacuum insulation, ensuring that beverages stay hot or cold 24 hours a day.

Cello products undergo rigorous quality inspections to ensure that each final product conforms to the highest material and performance standards. Cello your "Companion for Life".
